ENSAI, the French graduate-level engineering school specialized in Statistics, Data Science and Economics, is currently inviting applications for a position as Associate or Assistant Professor in **Applied Econometrics**. The appointment starts in September, 2020, at the earliest. At the level of Assistant Professor, the position is for an initial three-year term renewable for another three years before the tenure evaluation. At the level of Associate Professor, the position is tenured. Salary is competitive according to qualifications. The teaching duties are reduced compared to French university standards. At the appointment, knowledge of French is not required but it is expected that the appointee will acquire a workable knowledge of French in a reasonable time.

Candidate Profile:

PhD. in Applied Econometrics (or related fields), with any interest in Machine Learning and causality being a plus. Candidates with several years of experience after the PhD are encouraged to apply

Applicants will have a demonstrated ability to teach Master level courses, aimed at data science engineers, in econometrics, and more particularly micro-econometrics or related courses, and to supervise projects.

At the Associate Professor level, the candidate will have an outstanding research record and is expected to supervise PhD students.

Applications (in French or in English) should be submitted by email to recruitment@ensai.fr until **Mai 4, 2020**, with reference ENSAI/2020/AE as subject. Documents to include:
- Curriculum vitae;
- A statement of research and teaching interests (2-4 pages);
- Names and addresses of three or more individuals willing to provide letters of reference.

Additional Information

ENSAI (the French National School for Statistics and Data Analysis – Ecole Nationale de la Statistique et de l'Analyse de l'Information – www.ensai.fr) is a "Grande École", which offers high level education in Statistics, Economics and Data Science. Historically associated with INSEE (French National Institute of Statistics and Economic Studies), ENSAI offers several Master-level specializations as well as a PhD program in Applied Mathematics, Statistics.

ENSAI, together with ENSAE and Ecole Polytechnique in Paris region, share the research laboratory « *Centre de Recherche en Economie et Statistique* » (CREST – www.crest.fr). The research activity of CREST at ENSAI covers topics in Statistics, Economics and Data Science, in both theoretical and applied aspects.
